## Appendix C

Completing the averaging agreement table:

- Weekly compressed work week: only fill out "week ı" of the table. The hours should total your regular worked time (after any applicable lunch deductions). Please note that the first flex day occurs AFTER the completion of 4 days on the flex schedule.
- Bi-weekly compressed work week: fill out "week 1" and "week 2" of the table. The hours should total your regular worked time ( $\times 2$ weeks) (after any applicable lunch deductions), i.e., hours should total 75 hours over two weeks if you regularly work a regular 37.5 hour/week as defined by the University within an employment agreement or collective agreement. Please note that the first flex day occurs AFTER the completion of 9 days on the flex schedule.
- Tri-weekly compressed work week: fill out "week 1", "week 2" and "week 3" of the table. The hours should total your regular worked time ( x 3 weeks) (after any applicable lunch deductions)., i.e., hours should total 112.5 hours over three weeks if you regularly work a regular 37.5 hour/week as defined by the University within an employment agreement or collective agreement. Please note that the first flex day occurs AFTER the completion of 14 days on the flex schedule.
- Every four-weeks compressed work week: fill out all four weeks of the table. The hours should total your regular worked time ( x 4 weeks) (after any applicable lunch deductions), i.e., hours should total 150 hours over four weeks if you regularly work a regular 37.5 hour/week as defined by the University within an employment agreement or collective agreement. Please note that the first flex day occurs AFTER the completion of 19 days on the flex schedule.
